Main topic--s--

1. Virtual TikiFest planning
   We need to establish the topics and date for our next Tikifest: https://tiki.org/TikiFest-Virtual-2021
   * Validate topic and assign at least one volunteer
   * Validate a window to pre-schedule the event (or what we have is enough to set a date ?)
   ** Advertise our survey for more input
   ** Decide a week later
   May or June (preferable June so we have more time to finalise and advertise), majority of users are in European timezone with 20% on each sides with a slight preference for weekday. From here lets discuss our best options (moving important topic around 3UTC so all can come, weekday or weekend, having twice a demo/worshop with different timezone...)

2. Marketing the Tikifest event
   We planned a lot of demo and workshop for this Tikifest and it is a good opportunity to present Tiki in 2021 to people that were once using Tiki or never heard about it.
   It require some resources but optimised work can make this feasible with few hands. (part of this will be ported on the Tikifest page if it is decided we go for it)
   1. Advertising
      1. Graphics
      2. Message
      3. Landing page (?)
      4. Where (and who)
         1. Google
         2. Wiki page
         3. Facebook
         4. Twitter
         5. UserList and devList

We need to make an effort to broadcast in "a more" professional ways than usual our sessions.
   1. Content
1. Preparing the presentation (have time to prepare, test demo, ...) 
2. Support the presentation (have graphics and case ready, screenshot, ...) could be a team work (?) 
3. Make it interesting and progressive. Before the principal meat give background about Tiki, the feature, ... 
4. End with call for action. Give the viewer one or two simple action they can do to start with. (install, register, join, ...) 

2. Display and audio 
   1. Wearing a Tiki tee-shirt (?) 
   2. Lights and background (video must be nice... not harsh light from the back of the facilitator) 
   3. Audio must be clean (and tested [x] better use a headset and take care the area is audio clean (don’t kill the dog![])

3. Media (after it has been recorded) 
   1. Light editing (adding a short intro and outro), trimming the start and end 
   2. Recording (where, how, who ?) 
   3. Storing (where, how, wiki page, who?) 
   4. Offering VOD (invite people with different timezone or that couldn’t make it to view it) 

... put your topic (max. 30 minutes) into the list above
