

Consultant

[Rick Sapir](#) (ricks99)

 United States

I have 15+ years developing technical content for software, including user guides, tutorials, training material, and online help. I am a member of the Tiki Software Community Association and frequent contributor to the Tiki codebase and support forums. My beginner's guide, [Tiki for Dummies Smarties](#), and its followup, [Tiki Essentials](#) have been major sources of support for the Tiki Community.
