

# Banning system

## Add or edit a rule

Rule title	<input type="text"/>		
Username regex matching:	<input checked="" type="radio"/> <input type="text"/>		
IP regex matching:	<input type="radio"/> <input type="text"/> . <input type="text"/> . <input type="text"/> . <input type="text"/>		
Banned from sections:	<div><input type="checkbox"/> wiki<input type="checkbox"/> galleries<input type="checkbox"/> file_galleries</div> <div><input type="checkbox"/> cms<input type="checkbox"/> blogs<input type="checkbox"/> forums</div> <div><input type="checkbox"/> chat<input type="checkbox"/> categories<input type="checkbox"/> games</div> <div><input type="checkbox"/> faqs<input type="checkbox"/> html_pages<input type="checkbox"/> quizzes</div> <div><input type="checkbox"/> surveys<input type="checkbox"/> webmail<input type="checkbox"/> trackers</div> <div><input type="checkbox"/> featured_links<input type="checkbox"/> directory<input type="checkbox"/> user_messages</div> <div><input type="checkbox"/> newsreader<input type="checkbox"/> mytiki<input type="checkbox"/> workflow</div> <div><input type="checkbox"/> charts</div>		
Rule activated by dates	<input type="checkbox"/>		
Rule active from	<div>September172003</div>		
Rule active until	<div>September242003</div>		
Custom message to the user	<div></div>		
<div>save</div>			

This is where you will control any unruly users.

<b>Rule title</b>	Describe the rule you are creating.
<b>Username regex matching</b>	Type in the username you want to ban. You will have to choose either Username or IP address (below).
<b>IP regex matching</b>	Type in the IP address you want to ban. This maybe be useful if you allow new users to easily create new accounts, and the username option above is not being effective.
<b>Banned from sections</b>	Check sections from which the username/IP address should be banned.
<b>Rule activated by dates</b>	Check this box if you want the rule to only be active between certain dates (see below).
<b>Rule active from/until</b>	If you checked the box above, set the range of dates you want the rule to be effective.
<b>Custom message to the user</b>	If you like, type in a message to the user whom you are banning.
