Bootstrap Team

The Bootstrap integration is largely complete and this page is now for archive only

The Bootstrap Team has the task to implement the "Twitter Bootstrap" design framework into Tiki as a replacement for Tikis Classic Layout

It was decided at TikiFest2013-MontrealOttawa in April 2013 to implement Bootstrap framework compatibility in an upcoming version of Tiki.

Next major coding steps in November 2013 at the TikiFest2013-MontrealOttawa-2-Bootstrap in Canada.

Task + Project

The Bootstrap Team implements Twitter Bootstrap 3.1 into Tiki and makes Bootstrap the default theme and layout scheme of Tiki.
