

IrcHook

Note: IrcHook doesn't work with current #tikiwiki channel's tikibot

About

Irc Hook is a word to put on a page so it can accept tikibot added comments..

- to add a comment, use the command

```
!T add PageName your comment : http://url.tld
```

the strings prefixed with http:// https:// and ftp:// will be auto-linked

For example :

IrcHook

colorado 2004/05/03 20:13 : colorado testing irchookt : <http://tikiwiki.org>

lphuberdeau 2004/05/03 01:16 : test...

mose 2004/05/02 23:14 : irc instant logs on <http://irc.tiki.org>

mose 2004/05/02 23:08 : another test

telenieko (via tikibot), 2004/05/02 23:06 : I also want to try :o)

damian (via tikibot), 2004/05/02 23:02 : Tiki mods : <http://mods.tiki.org>

mose (via tikibot), 2004/05/02 22:59 : <lorinc> berryweb: if those are too technical, try these:

<http://www.heartbeat2000.com/>

mose (via tikibot), 2004/05/02 19:26 : still working ?

mose (via tikibot), 2004/05/02 18:54 : the original idea is from <http://udoo.org/mamading>

mose (via tikibot), 2004/05/02 18:53 : it rocks ! and it goes from up to down, too

mose (via tikibot), 2004/05/02 18:53 : just testing

IrcHook is a part of TikiBot made by [mose](#)
