October 11-16 2012

First part: October 11-13 2012

The TikiFest takes place not too far from the [Open World Forum 2012](#). It's a free conference about Open Source, however you must subscribe. We will meet there and find a proper place to work together.

Second part: October 14-16 2012

Then, we re-group elsewhere. We need proper internet connection so that we can connect via BBB to hold webinars.

Note: The internet connection requires land lines that accept 4-8 mbps
