

UserPageNeil_A

I am a GIS Specialist currently working at the Environmental Research Group Oxford.

I Have used TikiWiki on a couple of projects, check out the sites below and message me with your thoughts and tips...

[IGAD LPI Data Portal](#) - TikiWiki used as a data portal to Download GIS Data.

[EDEN PhD Directory](#) - A more traditional use of TikiWiki as part of a PhD community for a European-wide project with institutions and students all over Europe.

I would always be interested in getting involved integrating more Geo applications into TikiWiki. But due to pressures of work elsewhere I am unlikely to do anything unless asked!

Also Check out my other sites (not TikiWiki I'm afraid)...

[EDEN Data Portal](#) - This site was the "inspiration" for the IGAD Data portal above.

[My Blog - GISDataMonkey](#)
