😞 I really don't know what to say here...but I am a novice to TIKI but a longtime user of other CMS systems. I chose Tikiwiki for my non-profit medical site, CYTOPATHNET (<http://cytopathnet.org>). I am interested in promoting the use of Tikiwiki for the use within the medical community for online collaboration, eLearning, and open source manuscript publication. I dabble at php programming, but could really use some assistance from the Tikiwiki community with this initiative. If you have an interest along these lines, please contact me either through this site, or via my website. You can certainly find out more about our efforts there.

Other Miscellaneous....when I am not working 😊.
