Hi!

I'm new to Tikiwiki, using it just for a few days. It's impressive. That's all I have to say  $\Theta$ 

I'm currently creating a tiki web for some students, and also porting my own homepage to tiki. I'm looking forward to using it, because it is so easy to use and powerful. Just fun!!!

Anyhow... I don't think anyone will read what i'm writing on this page 🙂 So, never mind!
