Webinar 2013 04

When

Thursday, April 18, 2013 at 19:00:00 UTC time (click for time zone in your city)

What

See Webinars for a detailed description of sections. Pascal St-Jean is the facilitator.

Where

live.tiki.org

Who

- Frank
- insert name

Just a quick note, this webinar will be held during the TikiFest Ottawa. We will still schedule for this webinar and try to do a Live / Online connection as best as possible. If the people connecting online have a difficult time keeping in touch then we will push the webinar to the following week.

Topics

1st hour quick news

- Talk at FSFE Fellowship end of April 2013
  - How to build a local community? The magic threshold to get things into motion
- File system: ownership, permissions, shell vs. PHP
  - problem cases: demo.t.o and FTP only installation
  - maybe this is a topic for part two (takes longer?)
  - standalone preinstallation download+unzip tool
- The spam problem
  - registration
  - email
- News from TikiFest in Canada (Montréal, Ottawa)
  - Themes and layout/design model: switching to Bootstrap Framework
- (add any topics here)

Second hour, longer topics

- Security Team discussion
