What

As discussed during the Berlin WikiFest in November, **there is a stand and a nice place with sofas suitable for discussions for the purpose of a WikiFest** !
It will be within Village du Patio from monday july 11th to thursday july, 14th.

This will be a place for all Open Source Wiki fans and developers to get to know each other, discuss Wiki-related high points or issues, show off our software to the public, etc, etc, all in a friendly atmosphere.

We are listed among the associations as "WikiFest".

Bonus stuff

There will even be a presentation by Jean-Marc Libs & Jonny Bradley about Tiki Suite.
As well as other non-Wiki-related open-source presentations, of course.
And a free arts festival in evenings.

Practical issues

The best is to refer to the LSM website http://2011.rmll.info?lang=en for details on the event, information on travel or accomodation. They even organise lodging in university student rooms
