What's it all about

Where

What's in the house

The house is actually an apartment, it has a fridge & stove and a couch. I (a.k.a Pascal) will also get cookware to allow us to make food if ever you don't always feel like eating out.

What's not in the house

Whoever will be sleeping over at the house is responsible for whatever sleeping gear they need to be comfortable.

- Mattress
- Sleeping Bag
- Pillows

I know these things are not convenient to bring on a plane when you are traveling half way across the world. Therefore I hope everyone that is in Montreal or Driving from Ottawa or Toronto can bring some gear for all to share.

What we don't know yet

Do we have an Internet connexion? If not, I can bring some WiMax.

Sorry we don't have internet, I can bring a router etc... but your WiMax would be extremely appreciated.

Sleeping Gear (please add what you can bring)

Pascal

- Two Mattresses
- Two Sleeping Bags

Reservations

If you need a spot at the TikiHouse please contact myself (Pascal) or Marc. I prefer giving people e-mail or phone confirmation that they have a spot versus everyone editing the Wiki.

Check in Time

I am getting the keys on Wednesday 4pm. If you arrive anytime after 6pm myself and the rest of the Citadel Rock team will be there.
