Logistics

This is quite a patchwork! If you have a better solution, you just volunteered to be in charge of the next such meeting.

1. A dozen community members will be physically present in a conference room at [CGCOM](#).
2. Sound & Video will be broadcast & recorded via Ustream
3. Two projectors will be showing on the wall 1- the IRC chat 2- the Ustream video
4. Remote participants will be able to participate
 1. On the IRC Chat (which is projected on the wall)
 2. Or via Skype audio. Contact Pascal St-Jean to be added. He will SkypeOut a [POTS](#) speakerphone in the conference room. Please have a headset or mute your mic when you are only listening.
5. All conclusions are to be added to this wiki page. All participants are responsible from transcribing stuff. That means **you**!

To contact Pascal:

[chat pascalstjean](#)

When

13h-16h, local time in Montreal. [Check your time zone](#)

Agenda

1. Review of decisions and strategies since [TikiFest2008-Strasbourg](#)
2. Community organization. Background info: [SWOT](#)
3. [Roadmap](#)
4. Branching/merging strategy
5. Add your topic here

We have to close up around 16h, to get ready for the [Cocktail](#)
