Zukathemes.com is a provider and showcase of aftermarket visual themes for Tiki Wiki CMS Groupware. These themes are sometimes original and sometimes adaptations of themes made for other web platforms, or other sources. They are offered free of charge to the Tiki user community.

Currently zukathemes.com is using a theme that implements parallax scrolling and smooth scrolling up and down the page vertically. A companion domain, demo.zukathemes.com, hosts the theme demonstrations themselves. At this time, about 15 themes are available. More are in the pipeline. Contact zukathemes.com for more information.
